- Portfolio of fortune 500 clientele, state and local government municipalities, and many prestigious public & private companies

PROGRAM & PROJECT MANAGEMENT

Flexible

We meet clients where they are. We adapt our training offerings to fit customers' needs based on the number of students, available venues, and experience levels. Our exercises follow HSEEP guidelines, but are customized to test specific plans and capabilities requested by the customer. As a hallmark of our flexibility, HGA is available to provide training and exercises after hours and on weekends to accommodate busy work schedules.

Comprehensive Services

HGA understands the challenge and time requirements of developing training and exercise opportunities that meet federal guidelines. Our team can provide a full spectrum of technical assistance with exercise design and development, conduct, evaluation, and improvement planning. We can then develop training opportunities to improve shortcomings in capabilities identified during the exercise.

Interactive Learning

Our instructors provide hands-on learning opportunities to keep students engaged in the classroom. Learning by doing results in greater learning retention. HGA's exercises provide the ultimate interactive learning opportunities with realistic scenarios that test professionals on the job. Our exercises and trainings are designed to provide open, non-judgmental atmospheres so that the focus is on learning and improving.

Trained Instructors and Facilitators

Our seasoned instructors are passionate about emergency management. They bring wisdom and excitement to the classroom to motivate students. Our facilitators have the boots-on-the-ground experience necessary to design real-world scenarios for exercises and to provide substantive evaluation feedback.

Hunt, Guillot & Associates (HGA) is a multi-disciplined project management & engineering services company providing professional services to an extensive portfolio of customers throughout numerous industries.

At HGA we seek to build long-term customer relationships by listening to our clients, leveraging our experience and delivering on our commitments.
