

Oil & Gas Survey

PIPELINE SERVICES

HGA Surveying Solutions

HGA provides high-quality survey services to support a variety of oil and gas production needs. Our field crews are led by industry professionals and supported by a world class team of data technicians, CAD designers, project managers, and engineers. We utilize the latest in geodetic technology and data management software to assist clients with mapping & design, advanced material tracking, regulatory compliance, and unique solutions that transcend industry challenges.

Pipeline As-Built Survey

- Professional Documentation
- Underground Utility Identification
- Smart PIG Anomaly Geolocation
- 3D Pipeline Weld Mapping
- Plan & Profile Alignment Sheets
- Heat & X-Ray Number Mapping
- Regulatory Compliance Assistance

Pipeline Preliminary Survey

- DOT & Railroad Commission Permits
- Easement & As-Built Plat Production
- Location Mapping of Existing Utilities
- Access Road Planning & Layout
- Surface Ownership Identification
- Ownership Parcel & Exhibit Maps
- Permission & Survey Progress Maps

"The survey offered by HGA proved to be very professional in the data that was delivered as well as their response to our field needs. I recommend that if we have available work we offer it to HGA."

Tony Phillips - Anadarko Senior Construction Manager

"I sincerely thank you for your cooperation and effort in the timely delivery and quality of work taking place and can only ask that you please keep it coming my way. I'm going to be continuously using the Warrensville data collected by HGA as my prime example of what our deliverables need to look like."

Austin Berlin - Anadarko Spatial Data Analyst

Oil & Gas Well Survey

- Flowline Routing & Staking
- Limited Damage Release Plat
- Mineral Unit Survey
- Well Permit Plat

Facility As-Built Survey

- Infrastructure & Material Management
- FEMA Floodplain Elevation Mapping
- Site Grade Staking & Bluetopping
- P&ID Walkdowns

KEY BENEFITS

- Deliver Project Consistency with on-site management
- Oversee and integrate job goals and facility needs
- Decision Support & Comprehensive Reporting
- Lead in quality, safety, schedule & costs
- Industrial & Technical personnel placement, on- and off-site
- Precise & detailed design using 3D technology
