HGA Expands into New York

HGA's Program Management Group has been awarded a contract by the New York Governor's Office of Storm Recovery (GOSR) to administer CDBG-DR funds for their Superstorm Sandy, Hurricane Irene and Tropical Storm Lee Infrastructure Programs. To administer this work, HGA is embedded within GOSR's offices in Albany, NY, Manhattan and Farmingdale, LI.

HGA's Program Management Business Unit is structured to run large disaster recovery programs, with systems in place for effective management, communication and execution. The HGA Program Management group is providing planning, advisory consulting, and project coordination services to the area.

HGA is in the process of aggregating a 45 person team. Some employees are native to the area, while others are transfers from our Louisiana offices. Many of the team members were sub consultants of the Hurricane Katrina/Rita Disaster Recovery Team in South Louisiana. Jay Guillot, HGA Sr. Vice President, commented: "We are confident that the HGA team's in-depth experience in large recovery programs, combined with the local resources and knowledge of the current recovery landscape, will provide a significant contribution to a successful and comprehensive recovery."

About HGA

Established in 1997, HGA supplies a full-range of engineering, program management, and staffing services for public and private sector clients.

HGA has fourteen locations throughout Louisiana, Texas, Pennsylvania, New York, and Dubai, UAE, and a staff of over 350 employees.
