## **HGA Improves Ranking on ENR Top 500 Design Firm List**

Advancing 35 places from 2012, HGA jumped in rankings from 300 to 265 on the Engineering News Record (ENR) 2013 Top 500 Design Firm List. Since 2011, HGA has increased by an impressive 104 places.

Trott Hunt, HGA President, attributes the advancement to HGA's committed clientele and dedicated HGA employees. "HGA's continued advancement up the ENR Top 500 List is a direct result of our ability to service clients with expertise and with local availability. We have expanded into areas where our clients have needed support and in doing so we have placed a premium on finding and training the right people for the industries we support. Our business development professionals work hard to find us the proper opportunities and then we work hard in our operations to execute our projects. This collaboration yields a satisfied clientele that comes back to HGA year after year."

Based on design-specific revenue, the ENR Top 500 Design Firm list is an annual ranking on design firms across the country. Click [here](#) to read the full report or visit [www.enr.com](http://www.enr.com). You can find HGA on page 19.

### **About HGA**

Established in 1997, HGA supplies a full-range of engineering, program management, and staffing services for public and private sector clients.

HGA has ten locations throughout Louisiana, Texas, Pennsylvania, and Dubai, UAE, and a staff of over 350 employees. Having completed over 1,900 projects in over 29 states, Canada, Mexico, and the Middle East, HGA is recognized as a leader in the project management and engineering community.
