PROJECT MANAGERS
& ENGINEERS

HUNT, GUILLOT & ASSOCIATES

HGA is a multi-disciplined project management & engineering services company providing professional services to an extensive portfolio of customers throughout numerous industries.

Our expansive client roster includes Fortune 500 and Fortune Global 500 corporations, state and local government municipalities, and many prestigious public and private firms.

HGA has ten locations throughout Louisiana, Texas, New York, and Alabama. With a staff of over 400 employees, HGA has provided full-service offerings in over 30 states, Canada, and Mexico.

Industrial, commercial, public, or private, your company can trust in a proactive partnership with HGA. You can count on HGA to complete your project with excellence. At HGA we seek to build long-term customer relationships by listening to our clients, leveraging our experience and delivering on our commitments. Visit us at www.hga-llc.com.

We seek to build long-term customer relationships by listening to our clients, leveraging our experience and delivering on our commitments.”

PROGRAM MANAGEMENT

HGA provides a total business solution offering that will assist your company in defining, scheduling, planning, managing, and reporting project initiatives. Experienced in public, private, and governmental agencies, our holistic approach will maintain your programs effectiveness and efficiency through strategic planning and detailed project controls.

HGA's leadership can command all aspects of program management, including:

- Scope Definition
- Cost Validation
- Communications Planning
- Change Management

ENGINEERING

No matter your needs, HGA delivers one of the most complete, thorough engineering packages available. You can trust our advanced engineering capabilities throughout all disciplines.

Our client satisfaction ratings are testament to our attention to detail and commitment to delivering a high-quality product. *We offer the flexibility and willingness to adapt to each of our client's needs and methods.* Our proven design principles, project agility and resourcefulness, and knowledgeable, skillful staff will position your company to manage costs, improve efficiency, and complete projects on-time and within budget.

Dominion: Spruce Run Compressor Station

Tetra Technologies: Calcium Chloride Facility, Grass Roots Chemical Facility

Lion Oil: Benzene Reduction Unit

PIPELINE SERVICES

From maintenance and operating services to project and construction management services, HGA's pipeline division will be your best resource. We provide a full range of services offerings: inspection, procurement, surveying, design, right of way, engineering, and more.

You can rely on HGA to develop custom packages unique to your project needs and deliver project intelligence using leading technology. We offer you one of the industry's most sought after process modeling & 3D development systems – ensuring the best in quality and certain to save you time and money!

EPC SERVICES

HGA has successfully completed highly complex engineering, procurement and construction projects for clients in locations across the globe. Our EPC group specializes in CNG, metering & regulator skids, public works, and biomass. There is no scope that HGA cannot handle.

Whether it is an industrial initiative, or a secure government project, we present solutions that cater to the needs of each customer. When our clients have a difficult EPC challenge, they count on HGA to deliver.

STAFFING

Developed through our professional network, HGA Staffing provides proven contract personnel to on-site industrial projects worldwide. In addition to our contract services, HGA Staffing will deliver quality candidates for permanent placement. A few of our most popular placements are:

- Inspectors
- Construction Managers
- Engineers
- Designers
- Operations Personnel

Take advantage of HGA's Staffing expertise in identifying, screening, and placing engineering, technical, and industrial personnel.
